Landlite Plug-In Compact Fluorescent Lamps are North America's most comprehensive 2-Pin and 4-Pin lamp collections, designed as energy efficient alternatives to operate in incandescent and even conventional fluorescent fixtures.

Application Information

Applications

- Ceiling Fixtures
- Table Lamps
- Sconces and Pendants
- Task and Showcase Lighting
- Enclosed Outdoor Fixtures
- Difficult to Service Areas

Application Notes

1. 2-Pin Lamps are preheat lamps with internal starters, not suitable for use with dimming ballasts
2. 4-Pin Lamps are dimmable and compatible with electronic ballasts
3. Rated data and best lamp performance achieved when operated at 25°C/77°F on standard ballasts
4. Minimum starting temperature depends on ballast
5. Substitutions for Incandescent Bulbs depends on ballasts' specifications
6. In outdoor applications, use only in totally-enclosed fixtures to avoid exposure to weather
